

Drink your way to beauty!

Sato's Hakubi Drink Collagen 5000mg gives you an easy and yummy way to get healthy, beautiful skin!

They say true beauty comes from within. Now with Sato's Hakubi Drink Collagen 5000mg, you can nourish your skin from the inside out!

Sato's Hakubi Drink Collagen 5000mg not only tastes good, but contains Collagen which is essential for maintaining your healthy, glowing complexion.

Why Choose Collagen?

Collagen is a natural protein produced by the body that keeps skin looking smooth and fresh. In fact, Collagen is the most abundant protein in your body, and amounts to about one quarter of all of the protein. Collagen is also the main protein of connective tissue.

This is why Collagen is often described as the building blocks of the skin and

is a key ingredient in creating and maintaining healthy, beautiful skin all over your body.

Collagen not only contributes to healthy skin, but also works for hair and nails as well. It is an essential long-term anti-ageing protein. It plumps up the skin, reduces lines and wrinkles, improves the skin's elasticity and suppleness, produces a firmer more even toned skin and helps to achieve a glowing, radiant complexion.

However, once we hit the age of 25, our body starts to lose about 1.5% of collagen every year. That's why as we age our skin starts to wrinkle, our joints start to ache and our hair turns grey, because the connective tissue is starting to weaken. This is why it's important to replenish dried out Collagen in our system.

Collagen also plays a role in the healing of wounds like bruises, bleeding gums and fractures. It also plays a role in immunity by forming a protective barrier between infections or disease and the surrounding healthy tissues.

That is why a daily intake of Collagen supplement not only helps us to look and feel young but also improves your quality of life.

A bottle a day, keeps ageing skin away!

Sato's Hakubi Drink Collagen 5000mg not only comes with 5000mg of Collagen, but also has other healthy ingredients to help bring benefits not only to your skin but also to other important parts of the body!

These include Coix Seed Extract, a herbal extract used since ancient times in Japan and China, to help create highly moist, supple and baby smooth skin. It also has Vitamin B2 (Riboflavin) and Vitamin B6 (Pyridoxine Hydrochloride), which reduces secretion of sebum and maintains good skin membrane health.

And while Collagen in large amounts is usually not very pleasant tasting, Sato's Hakubi Drink Collagen 5000mg comes in a delicious fruity flavour for easy consumption. So you can take it once a day, as a yummy and easy way to keep your skin looking its best!
